

UT650/850/1050E-FR

UT Series

Fire-Resistant UPS with The Most Durable Capability For Protection

Featuring the best-in-class fireproof plastic housing, the UT series UPS provides an outstanding fire-resistance capability to minimize the possible damages of valuable assets in case of any fire incident. With CyberPower's innovative Battery Management Technology, it significantly increases the battery efficiency and therefore a longer battery life. The configurable alarm allows users to switch ON/OFF the audible alarm when UPS is on battery mode to avoid any disturbance. Its generator compatibility provides an extensive application scenario during power outage. With the built-in Automatic Voltage Regulation (AVR) stabilizing the AC signal and maintaining a safe voltage, it allows the UPS to maintain safe power levels through Boost and Buck function for the connected equipment without resorting to battery power.

APPLICATIONS

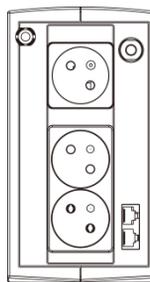

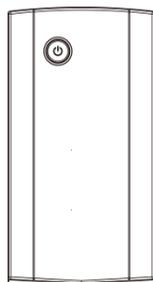

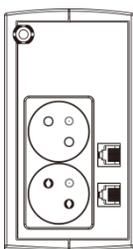

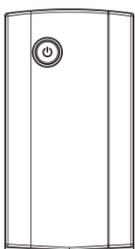

- Home and Home Office
- Small Office

SERIES FEATURES

- Automatic Voltage Regulation (AVR)
- Generator Compatible
- Simulated Sine Wave Output
- Overload Protection
- LED Status Indicator
- Fire-Resistance Capability
- Configurable Alarm
- Battery Management Technology
- Compact Size

Automatic Voltage Regulation

Automatic Voltage Regulation provides clean, consistent AC power by automatically regulating low voltages and over voltages, within defined tolerances, when incoming utility power has minor fluctuations.

Fire-Resistance Capability

CyberPower adopts the best-in-class fireproof plastics in the industry, and the outstanding fire resistant capability minimizes the possible damage of your valuable assets in case of any fire incident.

UT Series

Fire-Resistance UPS with The Most Durable Capability For Protection

Featuring the best-in-class fireproof plastic housing, the UT series UPS provides an outstanding fire-resistance capability to minimize the possible damages of valuable assets in case of any fire incident.

With the built-in Automatic Voltage Regulation (AVR) stabilizing the AC signal and maintaining a safe voltage, it allows the UPS to maintain safe power levels through Boost and Buck function for the connected equipment without resorting to battery power.

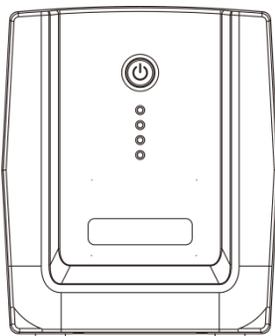

The included PowerPanel® Personal Edition management software showcases the feature rich abilities such as input/output power voltage readings, self-diagnostics, and approximate battery backup time.

APPLICATIONS

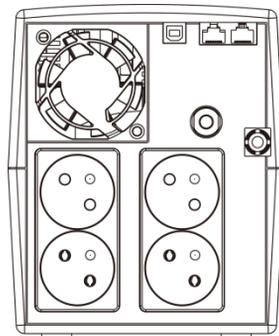

- Home and Home Office
- Small Office

SERIES FEATURES

- Automatic Voltage Regulation (AVR)
- EMI, RFI, Surge and Spike Protection
- Phone/Fax/Modem/DSL/Network
- Auto-Restart/Auto-Charge
- USB Connectivity Port
- LED Status Indicator
- Generator Compatible
- Fire-Resistance Capability
- Configurable Alarm
- Battery Management Technology
- PowerPanel® Personal Edition Software

Automatic Voltage Regulation

Automatic Voltage Regulation provides clean, consistent AC power by automatically regulating low voltages and over voltages, within defined tolerances, when incoming utility power has minor fluctuations.

PowerPanel® Personal Edition Software System Graceful Shutdown Software

This software can provide orderly shutdown for your computer systems during the event of an extended AC power failure. This software supports Windows 10/8.1/8/7/Vista/XP and Server 2003/2008/2012. Compatible Linux software and Mac instructions are available for download on the website.

*Software functions may vary due to firmware version and/or hardware constraints.
