

Laptop Solutions for the Workplace

USB-C® Dual Display Dock

Model: INC002

The USB-C® Dual Display Docking Station allows you to connect two HD monitors to your Windows®, Mac®, or Chrome laptop with up to 85 W of passthrough power to charge your device at the same time.

Our USB-C® Dual Display Dock allows users to expand their workspaces with universal compatibility for laptops in any business, school, or home office.

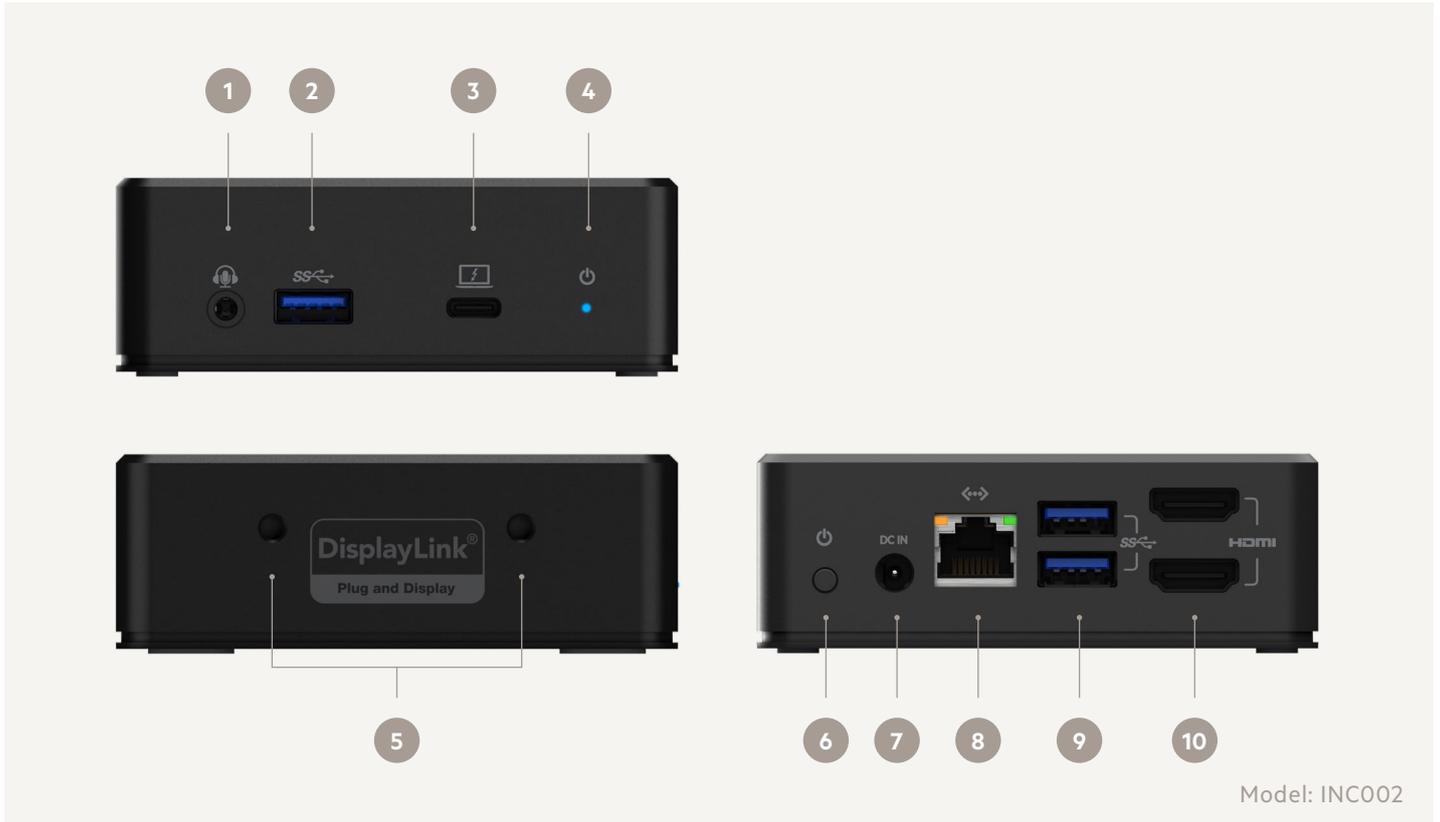

Featuring DisplayLink® technology, users can connect two high-definition monitors to a Windows®, Mac®, or Chrome OS™ device. This universal docking station offers up to 85W of pass-through power to connect and work while charging a device through a single cable. Connect an external hard drive, mouse, keyboard, headphones, and other peripherals to the USB-C® Dual Display Dock while reducing desktop clutter with a single-cable connection to a USB-C® laptop.

Benefits:

- Single-cable connection to turn any USB-C laptop into a workstation
- Supports two 1080p extended displays
- Pass-through power up to 85W with USB-C Power Delivery
- Compatible with Windows®, Mac®, and Chrome OS™ laptops and tablets
- Multiple ports to connect a keyboard, mouse, drives, and other essentials

Use Cases:

- IT buyer looking for Universal compatibility
- Shared workspaces / hot desking
- Flexible solution for work, education, play

Model: INC002

Front:

1. Audio in/out
2. USB A 3.1 Gen 1 with BC 1.2*
3. USB C PD Pass through
4. Power LED

Left:

5. VESA mount

Right:

6. Power button
7. Dc in 135W PSU included
8. GbE
9. 2 x USB A 3.1 Gen 1 (5 Gbps)
10. 2 x HDMI 1.4 (2K / 1080px)

Compatibility:

- Windows®
- Mac®
- Chrome OS™ devices with USB-C* connection

*BC1.2 – allows USB devices to draw more power than the legacy spec of that version would usually allow e.g. instead of 900mA it could draw 1.5A

USB-C® Dual Display Dock

Model: INC002

One Dock, Multiple Ports

Your essential devices can connect to a single docking station for power and ease of use. Ports include HDMI, USB-A, USB-C®, gigabit Ethernet and audio in/out. The mountable design also includes a Kensington lock for added security.

85W of Power Delivery

This adapter features a USB-C® port that supports passthrough power to channel up to 85W from an outlet to your devices.

DisplayLink Technology

DisplayLink graphics technology works across computing platforms and connector types, making nearly every monitor and system work together.** Just plug in your MacBook, PC, or Chromebook and they can all use the same large displays, keyboard, and mouse. Whether you're working, streaming, or gaming, you'll enjoy simple connections, solid connectivity, and ultra-low latency.

* Please download DisplayLink™ drivers before using Dock. Learn more: www.belkin.com/us/support-article
** Full functionality is dependent on host computer.

Ideal for:

- Mixed IT environments: offices, education, healthcare
- Hot desks
- Shared work environments

The Belkin **CONNECT**→ Family

CONNECT products are all about making connections. From cables that charge and share data, to docks that bring devices together for a more streamlined experience, **CONNECT** delivers data in the most efficient way possible, while maintaining the highest levels of quality. The very first product Belkin released to market was a cable, and we are proud to say that making connections has been an essential part of our story ever since.

The Belkin Difference

- Pioneer in innovation and technology for over 35 years.
- Building on the success of the Thunderbolt™ 3 Express Dock HD named CES 2018 Best of Innovation Awards Honoree.
- Robust testing of ports for quality, performance and durability when in frequent use.
- Environmental testing for ongoing material safety.

The Belkin **CONNECT** Family Characteristics

- One-cable solution to connect essential peripherals to a computer.
- Single solution to connect you to multiple peripherals.
- Multiple ports provide fast, simultaneous connection.
- Designed for portability to facilitate quick and easy workstation setup and takedown.
